Features

Read SMS'es

Read the latest SMS'es from your phone and send them to your email.

Remote control alarm

Have you ever misplaced your phone which was put on silent mode? Now you may sound the alarm on your phone from your PC!

View on map

Find the location of your phone on a map. With AndroidLost you can find your phone with GPS precision. Even if the phone is indoor you will get a nearby location by network accuracy.

Send SMS'es from your PC

You can send SMS'es directly from your phone by typing them on AndroidLost. All replies will still go to your phone.
